

## XYZ: Damages Case Opportunity

Company seeks financing for lawsuit against corrupt campaign financiers

The recent leaks along with evidence acquired from federal investigators and other lawsuits has delivered a high value opportunity for a company attacked by crooked campaign financiers. XPV is seeking a \$3 million sponsor for a lawsuit with over \$100 billion in potential recoveries.

### **How are the Damages against the victims of the Cleantech Crash Crimes calculated?**

#### **Report to the FBI and FTC – Cleantech Alliance**

The Defendants John Doerr, Larry Page, Elon Musk, Steve Westly, Steve Jurvetson, Steve Spinner and their White House cohorts; including David Axelrod, Robert Gibbs, David Plouffe, Rahm Emanuel, Steve Rattner, received over 50 billion dollars in profits from the crimes.

They received over 50 billion dollars at the expense of the victims because they intentionally, maliciously and in a coordinated manner, circumvented, those monies from the victims.

The amount of money that John Doerr, Larry Page, Elon Musk, Steve Westly, Steve Jurvetson, Steve Spinner and their White House cohorts acquired from these crimes is confirmed by reports at the Securities and Exchange Commission, The Internal Revenue Service and stock market transfer records.

Each competing automobile manufacturing company that they sabotaged, including Bright Automotive, Eco-Motors, Zap, XP Vehicles, Aptera, Brammo and others, had the potential to make as much money, or more money, than Elon Musk's Tesla Motors. These other companies offered lower cost, safer, longer range vehicles which higher volumes of consumers had demanded. This means that, if these companies had not been sabotaged by John Doerr, Larry Page, Elon Musk, Steve Westly, Steve Jurvetson, Steve Spinner and their White House cohorts, they would have made even more money than Tesla Motors. Thus Tesla Motors, and by extension, Nissan Leaf, provide a minimum baseline damages amount reference for some of the victims.

Each competing energy manufacturing company that they sabotaged, including Millenium Cell, Zap, Limnia Energy, and others, had the potential to make as much money, or more money, than Elon Musk's and Panasonic's lithium ion battery revenues. These other companies offered lower cost, safer, longer range energy production and storage systems which higher volumes of consumers had demanded. This means that, if these companies had not been sabotaged by John Doerr, Larry Page, Elon Musk, Steve Westly, Steve Jurvetson, Steve Spinner and their White House cohorts, they would have made even more money than the Cartel's lithium ion monopoly. Thus Tesla Motors Panasonic

revenues and Steven Chu's related Lithium ion holdings and associates revenues provide a minimum baseline damages amount reference for some of the victims.

John Doerr, Larry Page, Elon Musk, Steve Westly, Steve Jurvetson, Steve Spinner and their White House cohorts used character assassination as a vendetta process to seek to destroy the brands, reputations and witness testimony of the victims by manipulating their properties: Google, Media Matters and Gawker Media to author and distribute character assassination propaganda to the majority of the world's population via their pre-arranged and contrived control of the vast majority of digital media. In a similar case, Plaintiff Terry Bollea (AKA: Hulk Hogan) was awarded \$145 million dollars in damages because of character assassination efforts by the same parties. The attacks on Plaintiffs in the Cleantech Crash Crimes exceeded the resources used against Terry Bollea by many magnitudes and thus, the \$145 million dollar figure would be a minimum damages figure for each Plaintiff in the cleantech Crash Crimes attacked in such a manner. For example, Google, owned by the Defendants, locked the attacks on the front page on the top line of Google for over five years, without ever moving it, even though Plaintiffs purchased thousands of servers, and take-down requests to attempt to move the attacks even a few lines lower. This proves that Google was manually, and daily rigging the attacks. Thus, the damages award to the Plaintiffs should be much higher than the Terry Bollea award.

Government funding which was circumvented by John Doerr, Larry Page, Elon Musk, Steve Westly, Steve Jurvetson, Steve Spinner and their White House cohorts from Plaintiffs to themselves was not the largest quantified value of loss. Working with Goldman Sachs, John Doerr, Larry Page, Elon Musk, Steve Westly, Steve Jurvetson, Steve Spinner and their White House cohorts exploited the White House relationship with The Fed and the SEC to create a massive stock market valuation padding scheme which yielded historical profits. By stating government funds as "profit" and switching back and forth from stock skims to government funds in accounting records, tremendous stock market profits were placed in the pockets of Doerr, Larry Page, Elon Musk, Steve Westly, Steve Jurvetson, Steve Spinner and their White House cohorts. Had Plaintiffs not been circumvented by Defendants then Plaintiffs would have acquired these same benefits. The stock market loss to the Plaintiffs at the expense of the Plaintiffs is also calculated into the damages consideration.

John Doerr, Larry Page, Elon Musk, Steve Westly, Steve Jurvetson, Steve Spinner and their White House cohorts ordered Steven Chu, Lachlan Seward, Carol Battershel, Kathy Zoi and other executives at the U.S. Department of Energy, who they had placed into positions in the U.S. Department of Energy as shills on their behalf, to lie to and defraud the applicants. All of the money from the U.S. Department of Energy had been secretly hard-wired and the distribution of it covertly arranged to go to John Doerr, Larry Page, Elon Musk, Steve Westly, Steve Jurvetson, Steve Spinner and their White House cohorts stealthed ownerships. Thus, the applicants, who had superior technology, more customer orders, better value and provided less of a national security risk were defrauded into spending tens of millions of dollars on the applicant process via false promises and assurances of success which were already known to be lies from the first 2007 forward. The losses in time, expenses and time-to-market delays created by these fraudulent promises and assertions by the agents, in public office, covertly working for John Doerr, Larry Page, Elon Musk, Steve Westly, Steve Jurvetson, Steve Spinner and their White House cohorts are calculated into these damages.

Plaintiffs are demanding from the U.S. Government, The California State Government and the individual Defendants; general damages according to proof; special damages according to proof; exemplary or punitive damages; For a preliminary injunction and a permanent injunction enjoining defendant and their/her agents, servants, and employees, and all persons acting under, in concert with, or for him/her from continuing to publish the above-described private facts about Plaintiffs; for costs of

suit herein incurred; for such other further relief as the court may deem proper; and for an award of 15% of Defendants gross revenue since inception wherein that revenue was derived from profits made from the use of, or interdiction of, Plaintiffs patented and trade secret products, services and technology which Defendants covertly acquired information about and copied for profit.

In a generic calculation, at the lowest minimum calculation of damages, the amount of damages appears to exceed \$100 Billion. Forensic accounting based on Subpoenas will be required to finalize the amount but recent leaks and witness testimony confirm the veracity of these assumptions.
