

WHO IS THE SILICON VALLEY MAFIA?

The Sandhill Road Venture Capital frat boy company bosses in Palo Alto, their National Venture Capital Association (NVCA) partners and the tech companies (Google, Tesla, Facebook, Amazon, Twitter, LinkedIn, etc.) they control. They are sometimes referred to as "The Deep State". They have purchased California, New York and Washington, DC politicians (mostly Senators) who they also control. They hire rogue ex-intelligence agents to operate Fusion GPS, Gawker/Gizmodo, Black Cube, ShareBlue, New America, In-Q-Tel, Podesta Group, Media Matters, etc. massive media attack programs against competitors, reporters and outsiders. They collude on black-lists, valuation controls, election manipulation, search engine rigging, domestic spying for political manipulation, stock rigging, insider trading, executive prostitute clubs, trophy wife assignments, the bribery of politicians and worse. They are felons who pay politicians to halt investigations and interdiction efforts. They are widely covered in news media articles as: *'sex abusers, cult enthusiasts, elitists, rapists, woman beaters, probiosis abusers, sexual work extortion operators, extremists, arrogant clones of each other, tone deaf, echo-chamber reinforcing, misogynist, racist, manipulative, insecure, covertly gay, corrupt, thieves'* and other anti-social revelations. They use their monopolistic control of the internet to massively and exclusively scale services that only they control and use to abuse the public's privacy,

human rights and information. They run their cartel like the old Italian Mafia once did.
