

The #1 Date Rape Drug Used By Silicon Valley Oligarchs And Epstein Wannabe's Is Now Scopolamine

By Lauren Wright

- Nothing needs to be dropped in your drink, but it could be. Fragrance delivery is the new tactic
- Google and Facebook executives put it on their shirt collars, shirt sleeves and concert fliers that they wave in the faces of young girls, and boys, in bars or to date-rape interns in their offices
- The tech attackers use hidden nose plugs to protect themselves
- One whiff and the effects take place within minutes
- VC's enhance the effects with Oxytocin sprays and alcoholic drinks
- They use triple doses of sea-sickness patches and/or buy illegal vials from local gang members at clubs
- Some Stanford University Chem students sell compounded versions to pay their tuition
- Scopolamine creates chemical hypnosis to make you do anything they say
- Your friends can't even tell you are under the influence
- Silicon Valley venture capitalists and tech CEO's are the biggest buyers of the drug
- Under the influence of **Scopolamine** (AKA "*The Devil's Breath*") you will engage in any sex act, any crime, or even kill yourself on command
