NEW YORK (FOX5NY) - Virgin Atlantic says it will feature "Love Suites" on some of its New York bound jets that are designed with couples in mind.

It will have three Love Suites in some Airbus A330-200 planes that are joining the fleet in March, along with other special seating arrangements. The Love Suites are ideal for dual dining, watching movies together or catching up on "work", according to the airline. The seats are located in the center of the cabin.

The revamped Upper Class seating arrangements include "freedom suites" and extra-private corner suites in the jet's upper cabin.

All three private corner suites will include free Wi-Fi messaging and a barista-style coffee menu.

The planes will come with names such as Strawberry Fields, Honky Tonk Woman, Scarlett O'Hara, and Daydream Believer.

All 19 of the upper class seats turn into beds.

Virgin Atlantic's A330s, which were purchased from another airline and are being reconfigured, will initially serve flights from Manchester, England to New York City, Boston, San Francisco, and Barbados.
