Let American Farmers Grow Hemp Once Again to Create Jobs and Rebuild the Rural Economy

Created by E.S. on January 20, 2017

BEFORE

Industrial hemp was once a dominant crop on the American landscape. This hardy and renewable resource was refined for various industrial applications, including paper, textiles, and cordage. Unfortunately hemp was conflated with marijuana but hemp can't be used as a drug.

Over time, the use of industrial hemp has evolved into an even greater variety of products, including health foods, body care, clothing, auto parts, construction materials, biofuels, plastic composites and more.

Sign This Petition

Needs 72,000 signatures by February 16, 2017 to get a response from the White House

1. ANTIFA petition at 4:31PM EST. Unsigned.

WE THE PEOPLE ASK THE FEDERAL GOVERNMENT TO PROPOSE A NEW ADMINISTRATION POLICY:

President Trump: Declare Antifa a Domestic Terror Organization

Created by J.A. on February 02, 2017

Over the last several months, we have seen Antifa- short for "anti-fascist"- agitators commit acts of political violence all across our country.

Masked Antifa members in Washington D.C. attacked and beat several individuals, as well as looting and destroying stores during the presidential inaugural weekend.

Antifa members in Seattle beat several individuals

Antifa members in Berkeley beat people unconscious with flagpoles, assaulted innocent bystanders, and torched UC Berkeley property.

These acts of political violence are growing rampant and clearly meet the definition of terrorism. Antifa poses a threat to innocent men and women across the country.

President Trump, we as Americans who value peaceful discourse ask that you declare Antifa a terrorist organization.

WE the PEOPLE
YOUR VOICE IN THE WHITE HOUSE

WE THE PEOPLE ASK THE FEDERAL GOVERNMENT TO PROPOSE A NEW ADMINISTRATION POLICY

Ban dangerous lithium ion batteries from U.S. regions as advised by thousands of experts

Created by S.R. on November 07, 2016

Sub-atomic issues and the highly explosive nature of lithium ion batteries cause them to explode all the time. Lithium ion batteries explode when they get wet, bumped, charged or cross certain types of high-energy fields. The lithium is mined in Afghanistan, Bolivia and other war-profiteering regions which are exploited by those very same campaign billionaires.

Federal investigators and federal MSDS records state that the thermal vapors from these batteries cause cancer, brain and liver damage, neurological damage and mutate the fetus in the womb. The FAA and the UN have published extensive new rules warning about the lethal dangers of lithium ion batteries. A large percentage of the factory workers, that make lithium ion batteries, become poisoned and often die from the poisoning.

PETITIONGATE - CODEFAG IS BACK EDITION CODEFAG (ID: h/b+LECU) 02/02/17(Thu)20:19:27 [No.110736335](#)

ITT: Something with the <http://petitions.whitehouse.gov> is not right the petitions that work properly are only leftist.

PREVIOUS THREADS:

[>>110698850](#)

[>>110672378](#)

The petition that led to this discovery is <https://petitions.whitehouse.gov/pe>

When you sign this nothing happens; and before you say "THE 150 PRESIGNS" we are well past that point. As something similar happened to the "George Soros Security Threat" and "PIzzagate" petitions. Which I do not have links for (Someone get those please)

Using the infograph in OP (sorry for the size i didnt make it) you can see that after voting for two different petitions, one of them increased instantly while the other stayed at 1.

After doing my CODEFAG work I found the JSON (<http://www.json.org/>) that holds the stats for the currently loaded petition on the page. There is a few values that not like the rest of the petitions on the website. IsPublic and reachedPublic

The Petition in question: <https://api.whitehouse.gov/v1/petit>

"isPublic":false

"reachedPublic":0

and a different random petition:

<https://api.whitehouse.gov/v1/petit>

"isPublic":true

"reachedPublic":1484952666

After doing some more digging about We The People. I learned that a company named Blue State Deep created it, as well as creating Barrack Obamas Campaign website.

<https://en.wikipedia.org/wiki/Macon>

[https://en.wikipedia.org/wiki/We th](https://en.wikipedia.org/wiki/We_the_People)

<http://web.archive.org/web/20170202>

In the archive article it is mentioned that George Soros uses Blue State Digital for basically all his web development needs. Which means he probably owns the company or has reaches far into.

"Financier-philanthropist George Soros hired Blue State in the fall of 2006 to work on two projects."
