

FACEBOOK BOSSES ORDER STAFF TO USE "ANY RATIONALIZATION TO DELETE OPPOSITION POLITICS" BUT NOW THAT FACEBOOK HAS DONE THAT MORE THAN TEN TIMES, IT CREATES A LEGAL TRAP FOR FACEBOOK

By Conrad Brown - Attorney

Facebook keeps changing their rules in order to try to keep censoring information in favor of their DNC overlords.

That has caught Facebook in a legal death grip it can never survive.

In law, if a party engages in a criminal, illicit or suspicious activity, that could harm another party, they can get in much worse trouble if they are a "repeat offender". Many judges use the "ten rule". This means that if a Defendant keeps doing a bad thing, and they do it more than ten times, they are a habitual criminal.

Facebook exceeded its ten chances long ago. In fact, Facebook has habitually censored and biased information against millions of Plaintiffs over 300,000 times.

If I took this case to a federal jury trial, I would own Facebook two years later. There is no way Facebook can deny this and I have millions of witnesses to prove they did it!
