

Darkened Corridors

A ProPublica Live Wiki-Documentation

A gunshot rang through the corridors of San Francisco City Hall. A Mayor was dead and a new mayor was moved into position. The bullet that killed Mayor George Moscone on November 27, 1978 would lead to political corruption in 2016 that would change the course of the world. Systematized political rigging had breached a new era.

The assassination of George Moscone was perfectly timed to place Dianne Feinstein into power as the new mayor of San Francisco and begin the next-generation of industrialized corruption on an epic scale. The new generation of corporation-backed pay-to-play was now being sponsored by the newly minted power known as The Silicon Valley Cartel.

As George Moscone lay dying on his desk in San Francisco, just south of there a man named John Doerr was looking at a folder that showed that his Silicon Valley "venture capital" scheme had just broken the record at \$750 million dollars of input. Did John Doerr have George Moscone killed? Did he also kill Rajeev Motwani, Vince Foster, Gary D. Conley, Ravi Kumar, Andrew Breitbart, or the 78 other folks who had information that Doerr would not like to see go public? Maybe not...maybe so. What does the FBI think? Every single one of these people died before their time and they had information that threatened Doerr and his Silicon Valley political schemes.
