

THE 2018 DEMOCRATIC PARTY

The greatest trick that the devil ever played was making people believe that he didn't exist...

Even greater is the scam that has been perpetrated by the modern political left and in particular, the Democratic party and the DNC under extremists Tom Perez and Keith Ellison. Ever since President Trump's election, the Dems, the media and their shock troops of the Resistance have shamelessly invoked the Nazi card against their political enemies.

But it is the Democrats themselves who have far more in common with Hitler's regime, especially the early years when the Sturmabteilung (brownshirts) routinely disrupted their political opponents, intimidated and beat those who did not support the Nazis and most importantly, became experts in the big lie.

A new film by conservative Dinesh D'Souza calls bullshit on that narrative and like his own book entitled ["The Big Lie: Exposing the Nazi Roots of the American Left"](#) it exposes that falsehood and pins the swastika directly on the lying Democrats.

President Trump's son Don Jr. attended a screening of D'Souza's ["Death Of The Nation"](#) and during an interview with OANN, he spoke of how the ignorance of history has allowed the Democrats to get away with executing Hitler's early playbook to perfection.

So the left spends the last 3 years falsely calling my entire family NAZI's, but the second I point out the similarities between the economic platform of the National Socialists and the Democrat Party, they scream bloody murder. Here's what I was referring to. [#facts](#)

Donald Trump Jr. on Wednesday claimed the Democratic National Committee’s platform in the present day is similar to the “Nazi platform of the 1930s.”

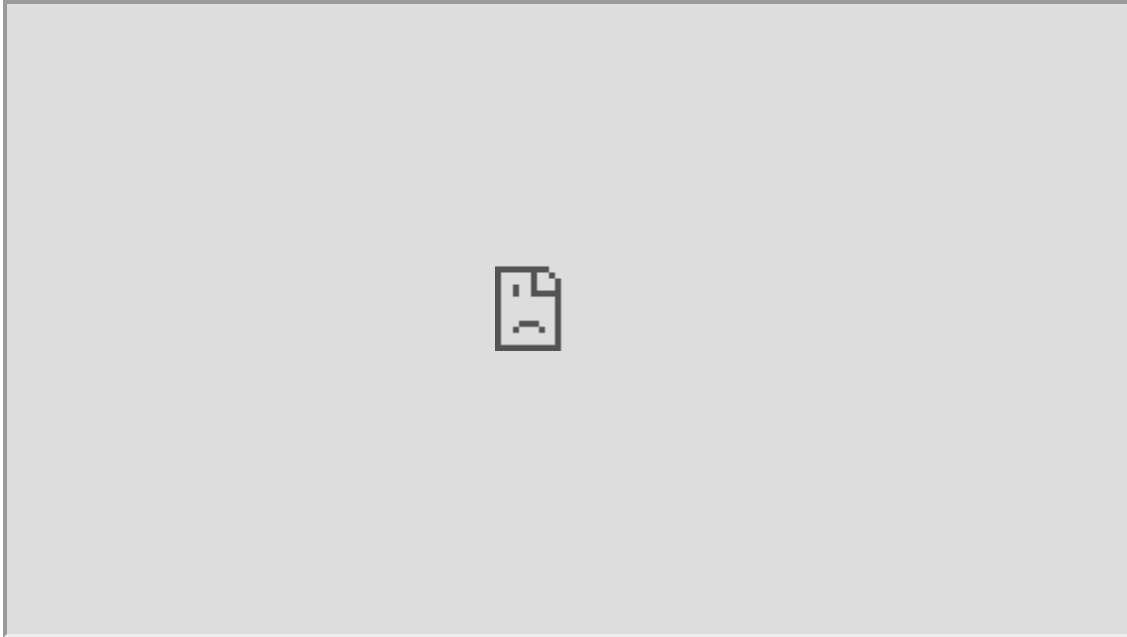

Speaking at a screening of far-right filmmaker Dinesh D’Souza’s new documentary, the eldest child of the president contended the left is unfairly labeling the right as fascists and Nazis.

“I’ve been out hearing the left talking about all these things ... fascism, Nazism on the right. When you look at the actual history of how these things evolved, and when you actually look at that platform versus the platform of the modern left, you say, ‘Wait a minute, those two are really heavily aligned and frankly contrary to the right,’” Trump Jr. said at the premiere of “Death of a Nation: Plantation Politics and the Making of the Democratic Party.”

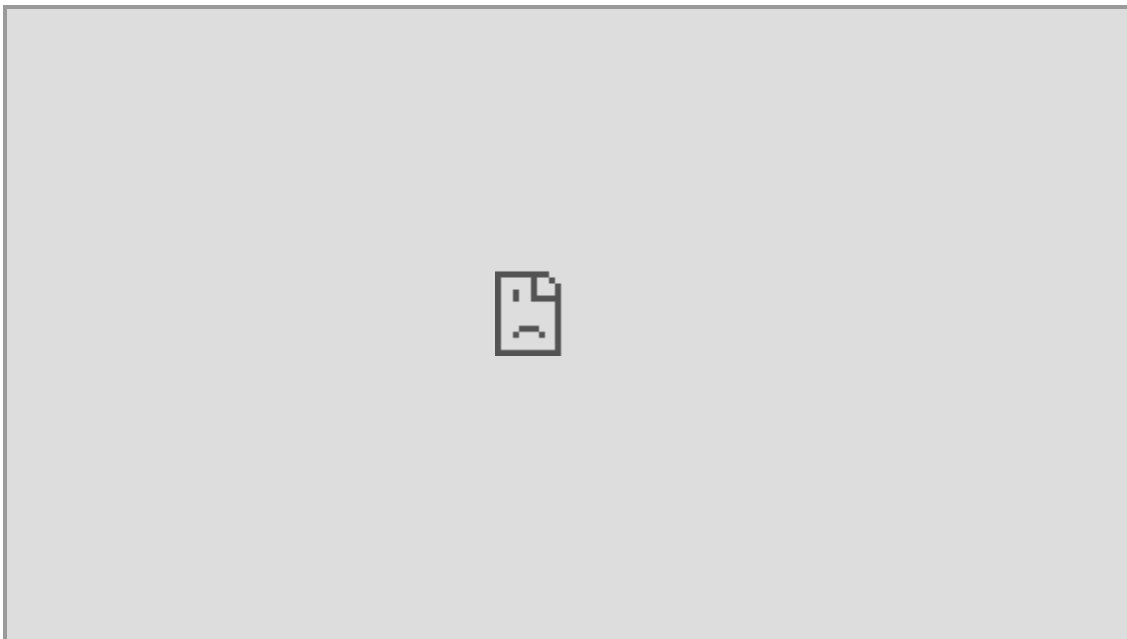

Trump Jr. said academia has been “wrongly” influenced by the left and led people to have misconstrued notions of what fascism and Nazism are.

“You see the Nazi platform from the early 1930s... and you look at it compared to the DNC platform of today, you’re saying, ‘Man, those things are awfully similar’ to a point

where it's actually scary. It's the exact opposite of what you've been told," Trump Jr. added.

Here's the trailer for "Death Of A Nation" which opens in theaters today:

As George Santyana once famously remarked: Those who cannot remember the past are condemned to repeat it.
