

Who Really Put The Hacker Back-Doors In all of the Cisco and Juniper Networks Hardware?

Sat, 19 Dec 2015 16:00:00, newstips66, [post_tag: hot-crime-topics, post_tag: who-really-put-the-hacker-back-doors-in-all-of-the-cisco-and-juniper-networks-hardware, category: worldnews]

- Every State and Federal Agency has been broken into for years
- Network Admins urged to pull EVERY piece of equipment
- If you have even a single Cisco or Juniper Networks device touching your network, then any kid can cruise inside with two mouse clicks
- Who is liable? Cisco? Juniper? The Feds? Sub-contractors? Insurance Companies???
- Anybody, or company, that was in the news in the last 10 years, was penetrated.
