

# Sarah Silverman Show Guest: 'Liberal Media' Is Dog Whistle For 'Jew Owned Media'

Ughhh...

**Feet2Fire** • 7 hours ago

Clue to Sarah: Dog whistles aren't necessary for stating the obvious.

More sympathy for the poor godless jewish princess. Jews do own the media, the truth is hard for these people that lie all the time... That's like Warren Buffet and Bill Gates giving all their money away. They end up giving it to themselves via their so called charities.

What do you expect from someone, particularly a woman, who celebrates the killing of little kids. Before you SJWs and feminazis respond, I am of the opinion that real women possess an innate sense of life. Its like a super power.

"Dog Whistle" is liberal for I know what you meant even though you didn't say it.

This is because liberals **always** think they're the smartest one in the room.

Wouldn't be the first time. The affable Georgie Soros is a fellow traveler. He rubbed lots of shoulders with ACTUAL Nazis.

No, because no one cares about the ethnicity/background of the owners, they just care about the quality of the reporting. Is the BBC Jew owned? They are among the worst at the propaganda.

Sarah Silverman - she's just ever so righteous, noble, honest, and good. Practically a saint.

So, it stands to reason that her very special totally unscripted and unrehearsed guests are too.

With Sarah's speech pattern, there would be an unnecessary  
"like" in the sentence.

Does she consider the media that Soros owns " Jewish owned " ???  
That would be an insult to Gorkey Schwartz....  
That's why he changed his name to George Soros.... He's a self hating Jew....

he may be self-hating but he's still a Jew. And how do you know he hates himself or Jews? He ain't flooding Israel with muslims, he's drowning Christendom with them.

Try as hard as they do, Jews are never going to be a chosen minority like pedophiles. Those who they believe are their Marxist soulmates, hate them for being Jewish.

really? <https://nypost.com/2017/10/...> The only shit that trumps Jews on the victim scale is Muslims.

Using the Jew card when it suits. Sarah ought to be concerned about her fellow leftists who are anxious to sacrifice Jewish men accused of predatory behavior while letting non Jews like BJ Clinton slide.

To be honest the entire lot can go to he11, just an observation.

Doesn't it seem like they're kind of taunting us to take the bait? I mean, why can't we even talk about it? To SOME degree it's at the very least KIND of true. I think they think by saying things like this they feel like they can close down the conversation. She's VERY chummy with Al Frankin, another Jew who's not funny.

Not that I'm saying that about Sarah, she's funny. Al isn't. Never was. But regardless, what does Jewish victimization have to do with the way they behave? And no, I'm not going to say 'not all Jews' not because I think they're all the same way, but because I shouldn't have to say it.

We're not talking about the holocaust, we're not talking about centuries of anti antisemitism, we're talking about specific things that members of their religion have done. Surely I'm not the only one who notices that, otherwise why would she have to bring it up?

Damned is you do acknowledge, more damned if you don't. Or is it vice versa? with it soon to be a "hate crime" everywhere on earth to acknowledge it.

Sarah Silverman uses her Jewish ancestry as defensive virtue-signaling so she can act like an asshole.

8 | · Reply · Share ›

**Xerocky** buzzsawmonkey · a day ago

She's far from the only one who does that.

AI Frankin for example.
