You work hard. Your pay stub has 40% taken out of it. This is over a Trillion Dollars of your money that was taken and put into the "bad guys" pockets so they could buy private jets and roller coasters.

LATEST PRESS COVERAGE ON ELON MUSK AND TESLA MOTORS: REPORT # 274-B

Inside The Washington Termination of Elon Musk

- Proving corruption doesn't pay.....well, it does, but you eventually get caught!

Today NASA released a nasty-gram because the Senate cut NASA's budget in order to terminate Elon Musk's outrageous taxpayer kick-back scheme. As you will see from recent articles, below, Elon Musk has been exposed as the kick-back conduit for paybacks to Silicon Valley for funding the Obama election campaign. Every single thing that Elon Musk does is now based on taxpayer kick-backs for billionaires. You would think that the last people on Earth, who need handouts, are technology billionaires. If you are a technology billionaire associated with Kleiner Perkins, though, then you are "technically considered to be a "disadvantaged billionaire" because corruption has so severely damaged your moral compass. So poor NASA gets caught up in the middle of this. The White House promised Elon Musk and his crony's a piece of NASA. The crony's got the whole NASA AMES airfield and free jet fuel for their private jets handed to them on a platter. A bunch of people got fired and American jobs were lost because of this. The exact same part of NASA was shut down, as the part that Elon Musk then got to receive contracts for. A bunch of people got fired and American jobs were lost because of this. Now Musk is rolling in so much taxpayer cash that he said, in the media, he is going to use some of it to "build a roller coaster" just for fun at the taxpayer funded Space X building. NASA has pretty much been handed over to Elon Musk as another kick-back perk. One look at NASA's website shows it to be more of a PR campaign for Musk's Space X company than a research agency, any more. So, being Congress, they don't like corruption that gets too insane and becomes too visible. The narcissistic Musk and Kleiner Perkins have now gone way over the line. On top of that, they put their egotistical brags and self-glorification way too far out in the media limelight. Because of unmitigated corruption; The public has to suffer, good engineer employees at NASA have to suffer, the future of American innovation has to suffer and good works have to suffer. Musk is a self-deluded elitist, his self-purchased media coverage confirms this. In his 60 Minutes story, he cries, on-camera, because the real space engineers have called him a late-to-the-game yuppie poser. All this was because White House senior staff decided to run kick-back campaigns instead of healthy bi-partisan forward programs.

How Elon Musk and Dianne Feinstein Became Partners In Crime: LITERALLY!

Go to any search engine and type in this search phrase:

Dianne Feinstein Corruption

Oh My friggin God!!! Look at all of those people willing to post evidence, and information, proving that an American Senator is running an organized crime operation from her Senate office... Wow!

Hopefully you didn't use Google to do that search because, you know, they pay for her campaigns and they delete the naughty bits about her and Musk.

So, we have a very overt case of stealing from taxpayers with a tag-team duo of bizarre connectivity. Let's take a look -

So it looks like Feinstein has always had poor relationship with ethics and Musk loves a good kick-back scheme. Feinstein could get initial campaign cash from Musk and his Silicon Valley Cartel, make laws that ship taxpayer profits back to her husband and Musk and then rinse, wash, repeat. They must have tried it once, saw that no cops showed up and figured, hell, let's try it again. They just kept getting the scams bigger and bigger, buying more adjacent Senators (Like Reid) and Attorney Generals (Kamala Harris) and tax officers (Lockyer) and figured, *"let's see how long this train can haul pigs.."*

Don't believe it? I know many writers who will meet the Feinstein's in any FBI office, CNN live interview or Congressional live public Special Prosecutor hearing, any day of the week, to go over the facts.

Hopefully the train may, finally, be pulling into the station:

Dianne Feinstein

-

Her daughter, Kathryn used to tell stories, in social groups, about her mom that were not flattering. At one point, she and her Mom were on the outs. Some San Francisco Bay Guardian, and SF Weekly, newspaper staff were Kathryn's same age, traveled in the same circles, and were privy to some of these conversations. This put an early watch on Feinstein.

When the current mayor was conveniently murdered in his office, Feinstein was in the, strangely, perfect spot to take over as Mayor, without an election.

Feinstein got a man named John Molinari, a character known to have ties to the old North Beach mob in San Francisco, placed as head of the Golden Gate Bridge District and her campaign financier, James Bronkema, known in the local media as "David Rockefeller's bag man on the West Coast" (for his constant bribes for real estate permits), placed as co-head. These two ran the Golden Gate Bridge district, and its anniversary party, into what network news broadcasts' called a "morass of corruption, cronyism and failure". In the meantime, Feinstein prepared her Senate plans. She had set Molinari up to take over, for her, as her Mayor, with her administrator: Roger Boas, as the back-up plan mayoral candidate.

Both of her candidates not only lost, but Roger Boas went to federal prison for corruption, racketeering and prostitution scandals and John Molinari was removed from politics and placed under federal surveillance. His daughter filed a police report against him for abuse, and she had to be removed from his home and taken to a secure children's center, on California Street in San Francisco, for protection. Molinari was also found to have lied about his place of residence during his campaign. Boas was charged with involvement in an under-age prostitution ring for San Francisco elites. The British "Hydrant" investigations into a global political elite pedophile ring, have now tracked back to Senator Dennis Hastert, campaign backer Jeffrey Epstein, Senator Graham, Nick Denton (Who interacted with the British suspects in BOTH the British "Hydrant" and British "Tabloid Phone Hacking" investigations), and other members of Congress. A recent Chinese hack of ALL federal employee background checks, has put the sexual interests of all of Congress at risk.

When the Toyota NUMMI plant was going to go out of business, Feinstein's Chief of Staff contacted anyone who tried to use the building and warned them to "back off" and/or threatened other California competitors with "political problems" if they got in the way.

Feinstein sabotaged any outside efforts to use the NUMMI factory, or to make competing energy systems to Tesla, or to compete with Tesla in any way because her family had already made campaign finance deals with the NUMMI, Tesla Motors and Solyndra people and she owned the construction company (Penini), employment service (via her relative Herb Newman), leasing company (CBRE) and adjacent railroad property rights contracts for Tesla and Solyndra. Over 40 California technology companies were damaged by Feinstein's sabotage.

Feinstein and her family funds, trusts and PACS made billions on the Cleantech deals. She has also been charged with rigging postal property deals, railroad deals, U.C. Regents appointments and hundreds of other political actions for her VC Husband: campaign financier and White House "advisor": Richard Blum. Solyndra was raided by the FBI, when the first major signs of corruption were exposed by investigators, but Feinstein buddy: Attorney General Eric Holder, never allowed the full Solyndra investigation to be released, because it was soon discovered to lead right back to top White House staff, including Gibbs, Plouffe, Emanuel, Axelrod and others. The records of the entire Solyndra investigation will cost famous people their careers, names and historical positions.

Elon Musk

-
-
-

Elon Musk is a campaign financier for Feinstein, Reid and Obama. Elon Musk was partnered with John Doerr to control the Lithium Ion Battery industry based around the Afghan Lithium ion mining contracts and control of the electric car market. Recent news stories have revealed that his business is based on White House taxpayer hand-outs, as kick-backs, for acting as conduit for John Doerr's campaign finance deals. Feinstein got him his California factory and Reid got him his Nevada factory.

Elon Musk hated fuel cells, ultra-capacitors, gasoline, diesel and anything that competed with Lithium ion, which he, Steven Chu, Feinstein and John Doerr had invested in. They all participated in sabotage campaigns, against all of those other fuels, using fronts like "EV WORLD", "PLUG-IN AMERICA", "THE FOOL" and other shill groups they controlled. Lithium ion technology turned out to blow up for no apparent reason; needs to come from countries that need to be invaded; gives off vapors that cause cancer, brain damage and kidney damage; loses its energy life span and has over a hundred other problems with it. It has set senior citizens, children, Apple stores, homes and offices on fire and crashed multiple airplanes, killing the passengers. When you smell smoke in your passenger airplane, it is usually a lithium ion cell phone battery "going thermal" and releasing fumes. Greed over-came proper scientific oversight in deploying lithium ion in the way that Musk did. When Musk went to Russia, he met mobster businessmen who pitched him a mining deal for Afghan lithium fields. In fact, investigators now know, that Steven Chu, strangely, gave U.S. Taxpayer DOE cash to Russian controlled Ener1, Severstal and other companies when the Section 136 law said the money was only to be used to help American businesses in need. The Musk/Russian-mob connection seems to have been hot, then soured, when his lithium mining and rocket engine deals fell apart, the killing of which was facilitated by GOP operatives.

When Musk took Tesla away from its founder: Martin Eberhard, in a hostile take-over, (Musk never "founded" Tesla) he had to build the car in a very expensive way. He and Doerr ordered their friend: Steven Chu, to sabotage every applicant, for DOE money, which tried to make affordable cars. An affordable alternative energy car would kill off Tesla almost over-night. History has now proven that the metrics that Tesla used were disastrous, in that they have now spent more money, to sell less cars, than any company in history, while making an electric car that should have been easy to build. Tesla missed every single milestone, dramatically, that it proposed in its original DOE application documents, yet Steven Chu ordered the DOE to look the other way in order to protect the White House deal.

Historical facts have now proven that every applicant for DOE advanced vehicle money was sabotaged and rejected, particularly if their car was affordable, and accessible, to the American public. Tesla couldn't survive an affordable electric competitor, at the time. Tesla investors bought most of the first Tesla's in order to inflate sales numbers. Musk was caught sending potential customers an email asking them to put a deposit in, before the SEC filing date ran out, so he could claim the deposits were completed "sales" in order to inflate SEC filing sales numbers. He also booked government hand-outs as "sales" in his SEC filings.

A Congressional investigation proved that Tesla had lied to get its loan and that his friend: Secretary of Energy Steven Chu, had assisted in the scam at the same time that others had applied with a superior set of application metrics. Tesla's "debt ratio" was the worst of any applicant, they had no final design, their car did not work, they were 2000% over budget, and they were using the funds to buy buildings for Richard Blum, even though the DOE Section 136 Law said: don't do that. Treasury said that Tesla had a bad credit rating and every other applicant beat Tesla on metrics. Yet Tesla still got the cash, along with hand-held walk-throughs, in the DOE process, from crony: Steven Chu. It was a lie that Tesla could have survived without the loan. Musk was caught on camera saying that Tesla was "on the verge of bankruptcy" when they applied to DOE, a violation of the federal Section 136 law. If this went through a court hearing, Musk and Chu would face felony fraud charges in violation of Section 136 law. Eric Holder would never let DOJ even consider such an action, in order to protect White House financiers.

Google worked with Musk to delete any negative mentions about Musk, or his projects, off the internet. Most of the internet is Google- controlled. Google would "top-page-lock" any attack articles that Gawker was ordered to generate, on Musk's competitors so that no outside IT service could get those attack articles removed from the top position. This made them stay on the top lines of Google's search pages forever. Even when lawyers wrote to Google to demand removal of the character assassination "lock-in's: on the top of Google's search pages, they were told: "Get a subpoena and then we might think about it.". This "lock-in tactic" destroyed the life, and reputation of a famous wrestler, which may lead to Gawker's final down-fall, in exchange for destroying so many other lives, out of sheer spite.

Musk has been proven to have lied, mismanaged and engaged in a commodity trading scheme with Goldman Sachs. Goldman Sachs has already been hauled before Congress once, to start the investigation of this commodity monopolization scheme.

The rogue spy firm attack services group: In-Q-Tel, provided staff to Musk. In-Q-Tel staff now help run his Space X company. Space X was given most of NASA, Ames Moffet Field, and free private jet fuel as a gift in exchange for conduit-ing campaign funding.

Musk was forced to give his patents away for free, because they were not only found to have no value, but to also accidentally disclose, within the very text of the patents themselves, the fact that Musk's batteries could be lethal and destructive in spontaneous explosions, according to the Tesla engineers who wrote the patent, three of whom suddenly, and strangely, died in the same airplane crash.

A large number of employees, customers, partners, wives and investors have sued Musk for fraud. Clinical psychologists have openly analyzed Musk, in the media, as a sociopath. Musk has bought hundreds of magazine articles and TV shows about himself due to his narcissistic nature.

Musk is now working on a railroad project called the "Hyperloop", with Dianne Feinstein's railroad-kingpin husband's company, in order to seek to acquire more federal cash. All three of Musk's companies would not exist without nearly \$10 Billion dollars of federal kick-back cash and "favors" Musk has received. The State of California has given him nearly 80 million tax dollars via the Controller: Lockyer and other State Officials. California Attorney General Kamala Harris refuses to investigate due to campaign connections.

Surrounded by private jets, fashion "models", and other corrupt billionaires, and with the protection of the United States Secretary of Energy, The U.S. Attorney General, The California State Attorney General and the President (All of whom have now been Sunshine disclosure-proven to have been placed in office by Doerr's "Silicon Valley Cartel"), Musk and Doerr believed themselves to be "untouchable" (Just like Al Capone) and able to get away with anything, without consequences. All of the above data appears in many journals outside of the U.S. but it is never allowed to appear on Cartel owned: Reddit, Google, Hearst Publications, Facebook or other Cartel controlled U.S. media (Doerr/Schmidt/Musk Cartel groups now control almost 75% of U.S. digital media)

-

John Doerr

-

-

John Doerr had financed Feinstein and the Obama campaign. His group owned interest in Solyndra, next door to Tesla (and on the same land), and the Afghan mining contracts for indium, and other minerals, which Solyndra was to exploit as another Sachs commodity trading scam with Russian "business-men". Solyndra was raided by the FBI when the tip of the scam started to reveal itself. Solyndra's chemicals also made its products explode into flames, on user's roofs, during use, just like Tesla's cars.

John Doerr controlled a large part of what the media now calls: "**The Silicon Valley Cartel**". He ordered competing applicants black-listed, by the Cartel, and placed on his, now famous, "No Poach List", to keep them from getting jobs, if they were 1.) Not in his frat house boys club 2.) Had original government verified patents on technologies Doerr stole, and made billions of dollars on, without paying for 3.) Had, unknowingly, complained about a small part of Cartel corruption. Investigations into the Doerr-managed "No Poaching Scam" and, In-Q-Tel founded: National Venture Capital Association (NVCA) "AngelGate" valuation-rigging continue. The Vlog: "The Corbett Report", has released extremely incriminating details about In-Q-Tel and the Silicon Valley Cartel.

John Doerr hates fuel cells, gasoline, diesel, and natural gas because they all beat his lithium ion holdings in most metrics. John Doerr helped start Eric Schmidt's company Google.

John Doerr's company: Kliener Perkins, was sued for misogyny and sex abuse by Ellen Pao, who began to open the door of revelations on Doerr. His partner Ray Lane was charged with massive tax evasion. His friend, and New America Foundation staffer, White House Car Czar Steven Rattner was indicted for Securities fraud in New York. His other friend, Raj Gupta, of McKinsey Consulting, (the firm who wrote all of the documents for Kleiner Perkins to lobby Washington with), sits in federal prison for corruption. His other partner Tom Perkins, who his company is named after, made insane statements in the public media about how "poor people don't appreciate that billionaires are smarter than them" and the poor are all "Nazi's" for saying bad things about billionaires. His other partner: Vinohd Khosla was exposed in a 60 Minutes episode as one of the major scammers in the Cleantech mess. Khosla is now being attacked, by most of California, for putting a gate on one of the States favorite beaches because "he said so". Khosla's Indian partner in the car project, a Mr. Tata, suddenly "fell" off the roof of a high building in Asia, when he was about to go public. The list goes on... Mr. Doerr keeps some interesting company.

Attack Services firm: In-Q-Tel, provided staff to John Doerr's projects and co-funded Google with Kleiner Perkins. In-Q-Tel's Silicon Valley office is only a few hundred feet from one of John Doerr's offices, and only 60 feet from one of John Doerr's company's doors. In-Q-Tel is famous for having been caught with FIVE TONS of Cocaine on their airplanes, one of which was listed in FAA records as "Cocaine One". Many commenters have noted that five tons of cocaine is quite a lot of cocaine for a registered 501C-3 non-profit "charity" to have. Kleiner Perkins, working with Goldman Sachs, use a stock market manipulation technology called the "Flash Boy Computer Array", which artificially pumps up the stock market value of Doerr stocks, such as Tesla and Solyndra. At the moment of "Peak Pump", Doerr and Sachs "skim" cash off the top. Doerr and Sachs also "skimmed" incoming cash off of the federal cash from the Department of Energy, up-front, off-the-top, as "services fees".

Once they get their cash, they abandon the company to bankruptcy. Under Steven Chu, more government funded companies suddenly failed, in the shortest, closest, time-frame, than ever in American history.

John Doerr, and Goldman Sachs, were involved in every single one of those deals. For the third part of the scam, when the vast numbers of DOE funded companies mysteriously, and suddenly, went bankrupt, Doerr and Sachs claimed **profits** from the tax losses by exploiting the losses on their tax forms. U.S. Treasury investigators referred to this as "**unjust rewards at the expense of taxpayers**". Department of Energy senior staff, very clearly, participated in this organized crime operation. The White House has ordered the protection of Schmidt, Musk and Doerr because an investigation, any deeper, will lead directly back to The White House.

-

Eric Schmidt

-
-

Federal records now show Cartel member Eric Schmidt spent just as much time dictating White House policy as his partner: John Doerr. Eric Schmidt controlled The New America Foundation, and In-Q-Tel, which acted as political lobby groups and "campaign "hit-squads".

While In-Q-Tel constantly claimed to be part of the CIA, The CIA disavowed any formal relationship with In-Q-Tel. In-Q-Tel has been shown to have taken an active approach in sabotaging, defrauding, and character assassinating competing Cleantech contenders.

In-Q-Tel helped John Doerr fund Google for Eric Schmidt. Like Musk's companies, Google would not exist without monopolization support and cash contracts from the White House. Eric Schmidt is featured in many public news articles raving about In-Q-Tel, which he was part of, confirmed by other recent hacks and leaks.

Eric Schmidt has Google rig its search engine (ie: manually change the Google servers to alter search results) in order to character assassinate political and business foes of himself, or Musk. Per White House and Secret Service records, Eric Schmidt has spent more time in the White House, dictating federal policy, than any current member of Congress.

The Cable TV industry has sued the White House for bowing to Eric Schmidt's demands to favor Google in all "net neutrality" rulings so that Google servers can still control election perception trends. The Cable industry has already started exposing Schmidt's bizarre sexual, business, marital and political practices. Google receives millions of dollars of wire transfers, per month, for relaying user information to political intelligence "user profile analysis centers" including In-Q-Tel. The death of Google technology creator: Rajeev Motwani, has always been surrounded by controversy. The recent "death-by-hooker" of Google search engine-rigging executive Forrest Hayes, is equally bizarre.

-

Nick Denton

-
-

Nick Denton was asked by John Doerr and Elon Musk to print attack articles, in his Gawker tabloid empire, which Eric Schmidt could then stick to the top page of Google while replicating those attack articles across thousands of servers in order to up-rank the attacks to their maximum potential. This tactic famously made a politician called Santorum come up on every Google search as "butt froth", while Schmidt and Denton laughed behind their hand that: "It's just something in the computer. We have no control over it. It's just a big computer, how could we control that?" The EU investigations have proven that lie to have been quite bold. Santorum's staff assisted in driving the EU investigation of Google and they are hard at work reviving the FTC Monopoly investigation of Google.

Nick Denton had a close relationship with White House Press Secretary Robert Gibbs. In campaign issues, if the media tactic was too dirty for a White House release, Gibbs would have his agents: Berman and Blumenfeld, get Denton to push the story out, ie: Santorum "Butt Froth", Palin Book lawsuit, Romney tax record hack, etc. In an even more bizarre situation, Big Time Wrestler: Hulk Hogan, now holds the keys to Gawker's future in his hands, in a defamation lawsuit which Nick Denton has confessed "may End the Gawker Empire".

-

Gary. D. Conley

-
-

Gary D. Conley ran Solyndra/Musk competitor: Solfocus, and Musk/Doerr competitor: H2Go, among other technology companies. He was constantly sabotaged by John Doerr. Not long after he whistle-blew on John Doerr, and Elon Musk, he was found out back of Beale Air Force Base, in Northern California, with a bullet in his head. His family, friends and associates said he was not despondent and had no health issues. The Beale security tapes have become "unavailable."

Terrified Elon Musk tries to save his "scam" railroad project by saying it is now an OUTER SPACE TRAIN

Since the "Cleantech Leaks" began rolling out this weekend, Musk has seen his whole operation begin to crumble. In direct response to those leaks, today, Musk announced: "Oh, that train I was going to build with my partners: Senator's Feinstein's Railroad Cartel Family, it..it's not a train.. it's an OUTER SPACE TRAIN to URANUS.. So I can have NASA facilities, which Obama gave me, build it.. cool, huh?"

The public are scratching their heads trying to figure out how a rail-road train project, that was trying to scoop up state and federal taxpayer cash give-aways, can now fall under the purview of NASA's and Space X "Exclusive" mission to explore the stars. Space X has pre-staged federal tax money conduits, and their own Senator, so it is easier to steal taxpayer giveaways through the Space X Scam door.

Everyone is waiting breathlessly, to catch a ride on another one of Musk's Bullshit Express tax payer scams. Hopefully, this is FINALLY a train-ride to jail for Mr. Musk, The \$5 Billion dollar tax-payer kick-back man:

The Musk Scam:

It's Official: SpaceX Is Building Elon Musk's Hyperloop ...

... has been involved with any concrete plans to actually build it. "SpaceX will be constructing ... and will be tested in June of 2016 at the SpaceXhyperloop test ...

ELON MUSK: A RAT IN SPACE

Elon Musk, a billionaire, has now received billions of free taxpayer dollars in out-right cash hand-outs, tax waivers, free or low-cost resources, stock pumps and federal NASA contracts. Musk's companies would not exist today if not for taxpayer hand-out cash. No other living person has received this much taxpayer money from the Obama administration. No other living person has given so much money to the Obama administration

through his companies, investors and partners, like Google. No other living person has had the Obama administration sabotage, terminate or rule against so many of his competitors. Federal records demonstrate this to be one of the most overt examples of a political campaign kick-back scheme in this decade. In Musk's carefully orchestrated, self-aggrandizing, media campaigns, all mention of his true financial connections, extensive fraud lawsuits, and employee distrust is carefully expunged.
